Version Control: GitHub, GitLab

## LANGUAGES

- Arabic (Fluent)
- French (Intermediate)
- English (Fluent)

## PROFILE

Motivated React Native developer with 3+ years of experience building scalable, high-performance mobile applications. Passionate about creating intuitive use interface, optimizing app performance, and contributing to collaborative development environments. Seeking a remote/on site role with a company to apply my expertise and grow within a dynamic team.

## WORK EXPERIENCE

- Flexiapps** 2022 - PRESENT  
React Native Developer
  - Developed and maintained cross-platform mobile and TV apps using React Native and integrated RESTful APIs.
  - Collaborated with designers and backend developers to improve UI/UX and performance.
  - Implemented Redux for efficient state management across complex apps.
  - Debugged and resolved production issues, improving app stability

## PROJECTS

### Highlighted Projects

#### E-commerce Platforms

- Developed client apps, delivery guy apps, and back-office apps using React Native and React for seamless management.
- Integrated payment gateways (Stripe, CML...etc) and Firebase authentications for secure transactions. Implemented real-time order tracking, background geolocation, and push notifications to improve user experience.

### Additional Experience

- Worked on 50+ e-commerce applications with complete ecosystems: client apps, delivery guy apps, and admin dashboards.
- Developed streaming apps for mobile devices and TV platforms, focusing on smooth video playback, adaptive streaming, and Chromecast/Smart TV support.
