PROFESSIONAL SUMMARY

Mobile and Full-Stack JavaScript Developer with over 4 years of experience in designing and deploying highly scalable mobile and web applications. Expert in React Native, with a track record of developing and maintaining more than 50 production applications (e-commerce, real-time tracking, logistics). Possesses strong backend expertise, mastering modern API design, software architecture, and system performance optimization.

PROFESSIONAL EXPERIENCE

React Native & Next.js Developer | MobiArchitects (Casablanca)

October 2025 – Present

- Develop and maintain cross-platform mobile applications using React Native and web applications using Next.js.
- Design robust mobile architectures, including real-time geolocation, background tracking, push notifications, and offline-first functionality.
- Optimize interface performance and REST API efficiency to ensure a seamless user experience.
- Participate actively in architectural decision-making and collaborate directly with clients to define technical requirements.

React Native & React.js Developer | FlexiApps (Rabat)

2022 – September 2025

- Developed over 50 mobile and web platforms, including complete e-commerce ecosystems (customer applications, delivery applications, and admin dashboards).
- Integrated secure payment solutions such as Stripe and CMI.
- Implemented complex real-time features (Socket.IO) and notification systems (OneSignal).
- Improved production stability and application response times.
- Collaborated closely within Agile teams (Backend, Design, Product) to deliver high-quality products.

PERSONAL PROJECTS

Appointly Backend

- Designed and developed a comprehensive appointment booking platform backend using Node.js, TypeScript, and Express.
- Built over 60 secure REST API endpoints with JSON Web Token authentication and role-based access control.

- Managed complex asynchronous tasks and background job queues using Redis and BullMQ.
- Implemented MongoDB transactions to prevent double bookings and ensure data integrity.
- Integrated third-party services (Cloudinary for file management, Stripe for recurring payments).
- Automated API documentation using Swagger/OpenAPI.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3
- **Mobile:** React Native, Expo, Native Android and iOS development
- **Frontend:** React.js, Next.js, Tailwind CSS
- **Backend:** Node.js, Express.js, REST APIs, JSON Web Token authentication, Swagger/OpenAPI
- **Databases:** MongoDB, Redis
- **Real-time & Asynchronous:** Socket.IO, BullMQ, Node Cron
- **Cloud & Services:** Stripe, Cloudinary, Firebase, OneSignal
- **State Management:** Redux Toolkit, Redux Saga, Redux Thunk, React Context API, TanStack Query, Realm Database
- **Tools & Environment:** Git, GitHub, GitLab, Docker, Postman, Jira, VS Code, Android Studio, Xcode

SOFTWARE ARCHITECTURE & SYSTEM DESIGN

- REST API design and scalability
- Modular backend architecture
- Role-based access control (RBAC)
- Redis caching strategies
- Real-time communication systems
- Asynchronous background job processing
- Pagination, filtering, and performance optimization
- Error handling, logging, and atomic MongoDB transactions

AI & PRODUCTIVITY TOOLS

Advanced utilization of artificial intelligence tools (ChatGPT, Claude, GitHub Copilot, AI coding agents) for code generation, refactoring, debugging, documentation, and workflow automation.

EDUCATION

Professional Bachelor's Degree in Mobile Applications | Higher School of Technology, Salé (2021 – 2022)

University Diploma of Technology (DUT) in Software Engineering | Higher School of Technology, Salé (2018 – 2021)

LANGUAGES

Arabic (Native), French (Professional), English (Professional)
